## Built in and loose furnitures Acrylic solutions

With its well-equipped and technically advanced team, working in a solution-oriented way with flawless production and service concept in production and installation stages, HPM today continues to carry out large **hotel, residential, hospital and civil projects** both at domestic and international levels.

With its dynamic and open-minded structure, HPM always follows up improvements and new trends; **designing, producing and installing built in and loose furnitures, decorative wooden panels, fire rated doors and acrylic products for hotel, residential, hospital and civil projects** in the light of broad material knowledge and production experience.

# A Leading Company in Wooden Furniture Production

## Timeline

HPM Hotel Project Materials entered woodworks industry as a local producer of modular kitchen, bathroom systems and indoor doors as a subsidiary of Astaş Çelik Kapı San. Tic. A.Ş. which produces the safest steel doors of Turkey since 1993.

In 2008, started a partnership with Pbm Germany and became one of the prestigious suppliers within the industry especially with the hotel furniture projects accomplished both nationally and internationally.

**38.000sqm    350+ Workers**

## Production

Started production with only 20 people workforce and 3.000 m<sup>2</sup> facility, HPM today employs 350 people and makes high quality production using high-tech machinery at its 9.000 m<sup>2</sup> facilities, targeting customer satisfaction in first place.

## More than 25 years experience

## Quality

Targeting adding value to all projects carried out, HPM takes its strength from belief in teamwork and trust in engineering skills. With its environmentally conscious and sustainable production policies, HPM accomplishes your requirements at the time you need and in the way you want, setting its main principle as keeping promises at all times.
